SOUTHERN COAL BEDS

REVISED 10/2004

allcoalbeds10_2007.xls

Below are the coal bed names (New Coal Bed) that Property Tax is carrying in its database for valuation purposes. It is **very important** to have the correct coal bed name with the characteristics that are used to calculate the value. We would prefer that you use the abbreviations corresponding to the New Coal Bed names. For most of Boone Co., Logan Wyoming, Mingo, Lincoln, Wayne, and parts of Fayette and Raleigh there are name discrepancies caused by mis-correlation of the marine zones below the Kanawha Black Flint. Names listed under Old Coal Bed are the equivalent names, in the above counties, to the New Coal Bed names. You will notice that the problems are concentrated between the Winifrede and Gilbert beds. And yes there is a little Upper Freeport and Pittsburgh in the South. You may add an upper or lower split and number to the coal bed abbreviation; such as STKU1 or FCYL2. Don't use more than two split numbers. If you have any questions give us a call at 304-558-3940.

NORTHERN COAL BEDS

REVISED 3/2004

Below are the coal bed names (New Coal Bed) that Property Tax is carrying in its database for valuation purposes.

It is **very important** to have the correct coal bed name with the characteristics that are used to calculate the value.

We would prefer that you use the abbreviations corresponding to the Coal Bed names.

You may add an upper or lower split and number to the coal bed abbreviation; such as SWKU1 or CLAL2.

Don't use more than two split numbers. If you have any questions give us a call at 304-558-3940.

Coal Bed	WVGES Abbv.	Local Names	Local Names	Local Names	Local Names	Local Names	Local Names
Washington	WAS	Hickory Knob	Chestnut Oak				
Waynesburg A	WYA
